About this boat

Bayliner V22 Series — a new motor boat from Bayliner (premiered June 9, 2026). The V22 Series includes two models: the V22 outboard and the V22I sterndrive. The hull features a 20° deadrise and a wider beam of 8.4 ft for improved stability. Fuel capacity is 45 gallons, supporting extended range compared to the previous VR6 model. The layout includes an L-shaped lounge, twin 180-degree swivel bucket seats, and a spacious sunpad. Notable features include an integrated cooler, retractable swim ladder, and phone charging ports throughout. The boat is built in the USA in Tennessee and supports towing for waterskiing and tubing.
