About this boat

Feadship Project 824 — a new mega yacht from Feadship (unveiled spring 2025). Project 824 is a 100-meter (328 ft) full-custom superyacht launched by Feadship in May 2025. The yacht was designed by Jansen

with naval architecture from De Voogt Naval. It features a diesel-electric propulsion system with ABB pod drives for efficient, low-vibration performance. The vessel emerged from Feadship's historic Kaag yard after 20 months of outfitting. Project 824 has been delivered and renamed 'Pi' for owner Howard Schultz. Details on guest capacity and cabin layout remain undisclosed due to the project's discreet nature.
