About this boat

This catamaran brand has become one of the most successful models in the Cruising Catamaran market. She has a high bridge deck to minimize slamming. A solid deck gives the boat rigidity and the hulls have been sculpted to slip through the water efficiently for a cruising catamaran. All of the bulkheads are laminated to the hull. Construction of the core of the boat is with Divinycell Foam (closed cell foam). You would normally expect flybridges on larger yachts, but that has never stopped Bali from going down this design route. The flybridge opens up the space on the main deck with that famous tilting door, and the forward cabins have been arranged athwartships using the space in the nacelle like a Privilege. T...
